A Child's Hope Fund

**Changing Lives,
One Child At A Time**

**Annual Report
2006-2007**

Founder's Message...

It's easy to forget, surrounded by the abundance in our own lives, that others still struggle every day.

For many children, that daily struggle is actually their battle for survival, whether from cancer, diabetes or other illnesses, abuse, war, natural disaster or even sexual exploitation.

A Child's Hope Fund changes the lives of children all over the world. This past year, we delivered relief and hope to thousands of children, especially across Central and South America.

We work with local charities to assist local people with practical aid, encouragement, healing and tangible proof of God's love to thousands of children and their families.

Our local approach ensures that we provide long-term, effective, life-changing aid to communities with minimal amounts spent on administrative overhead and fundraising costs.

We ask for your support both in prayer and financial strength, both of which are essential for us to keep changing lives and giving living proof of God's love.

Rev. Joel MacCollam

A Child's Hope Fund

Thousands of children worldwide face public disdain, poverty, hunger, disease and cruelty. **ACHF** provides life-sustaining resources, including food, water, medicine and clothing to many of these young victims, especially in Central and South America.

We also support educating children and creating an environment where they feel unconditionally loved...something every child needs. **ACHF** is changing the lives of children everywhere we work.

The barrios of Latin America offer little hope. However, thanks to our partnerships with local charities, children are offered a positive future beyond disease and poverty. Our special concern remains young victims of cancer and diabetes.

Girls and boys now can get the education, food, clothing and love that they need to grow up with the best possible chance to become productive adults in their communities.

ACHF also brings support to areas struck by war, earthquakes, famines, floods, and other horrors. Many children we assist are victims of multiple forms of cruelty including drugs, child abuse and sexual crimes.

The smiles on so many youngsters' faces are the greatest reward for our efforts. We are blessed to see these children grow and thrive, and become a force for change in their own communities. But our battle continues to save and provide for the youngest of our world's desperate children in need.
